

A New Strategy for Electric Auto Sales

Drop-in, range-extending package for global auto industry

Enhancing Electric Car Sales

Moving ahead with new solutions

Now that the public is seriously looking at electric vehicles & range extended automobiles, it's time to address the "limited range" problem with a new solution.

Global Electric Auto Market

Meeting customer expectations

- People are holding back on purchasing pure electric vehicles.
 - ▶ They like the concept of plug-in savings, but want to be able to drive farther when the need arises.

The Perfect Solution

WorldKar's range-extending power units

- Designed as a universal range-extending package for any electric automobile.
 - ▶ Dramatically extends range
 - ▶ Hyper-efficient turbine engine saves on fuel
 - ▶ Infinite-life engine lasts forever

Global Industry Partnership

Pure electric & range extended vehicle industry

- Every automotive company on the planet has a vested interest in working with us to introduce this option for aftermarket sales.
 - ▶ EV manufacturers need this product to enhance sales.
 - ▶ Auto suppliers need it to supply to global auto industry.

Pathway to a Cleaner Future

Strategic partner development opportunity

WorldKar is ready to work with automobile manufacturers & suppliers to boost their electric & range extended vehicle sales.
